Focus FS

TEAM SAFETY

EMPOWER A SAFER, MORE CONNECTED WORKFORCE

Safety managers face major challenges every day. Identifying hazards and mitigating risk are critical, but relying on paper forms or outdated systems is ineffective. Inconsistent incident and event reporting can lead to bigger issues. Ensuring workers receive the right training is more difficult than it seems.

The Focus FS Team Safety solution provides innovative digital tools needed to build better safety cultures. Instantly report from anywhere on mobile devices, efficiently manage actions and post-incident reviews with intuitive digital forms, and easily manage training courses and certifications.

Empower your team to competently and safely do their jobs with Focus FS.

BENEFITS

Safety management wherever you go

Get more efficient, comprehensive safety reporting in the cloud - accessible on any device, everywhere you need to be.

Streamline incident reporting and investigations

Easily gather incident and event data as it happens, facilitating reviews and investigations for better safety operations.

Simplify training program and certification management

Ditch the spreadsheets and emails for an intuitive training tracking tool that issues notifications and customized reports.

Improve corrective and preventative action management

Instantly generate and assign follow-up actions, enabling accountability and transparency for better results.

Drive worker engagement and positive behaviors

Keep safety top-of-mind with workflows that encourage positive recognition and an overall healthier safety culture.

Configure to meet your worksite safety needs

Build customized forms, reports, and dashboards to ensure your team always has the tools and information they need.

Proactively mitigate risks and reduce incidents

Identify hazards, recognize trends, and take action to address risks and reduce fines, violations, and incidents.
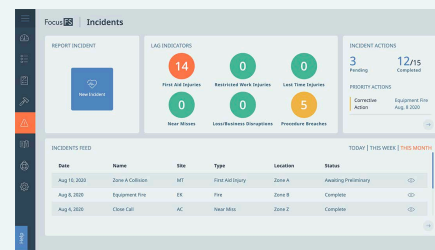

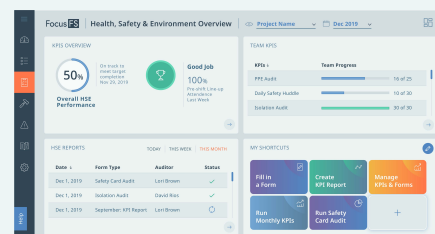

Ensure compliance and regulatory requirements are being met

Collect and analyze all the data and reports you need to share with any regulatory bodies you interact with.

FOCUS FS PLATFORM

Team Safety is a solution on the Focus FS cloud-based software platform. With integrated data and functionality, you get flexible solutions that perfectly fit the needs of your organization.
